

SIERRA MADRE NEWS

VOL. IX.

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, JULY 9, 1915.

NO. 41.

C. C. NOURSE IS APPOINTED TO TRUSTEE POST

C. C. Nourse of West Central avenue was elected to the vacant position on the board of city trustees at their regular meeting last night. The place had remained open for three weeks while the other board members sought suitable timber among the west enders, that section being left without representation. The selection of Mr. Nourse will doubtless bring satisfaction to all elements and sections. Mr. Nourse was summoned from his home and upon appearing at the city hall was sworn in and took his seat at the foot of the council table.

Improve Carter Avenue

Ordinance of intention for the improvement of that portion of Carter avenue lying west of Auburn was adopted. That is the only part of Carter avenue not improved and the property owners petitioned some time since that the street be paved, gutted and curbed.

Another Proposition

Trustee Johnson reported for the committee appointed to confer with West Central property owners owning property sought by condemnation for sidewalk purposes. He said they had talked with Mr. Andrews and worked out a proposition which was presented in writing, providing that the city remove the building and haul the lumber to any place designated within the city limits, put the lot in presentable shape, grade the sidewalk, pay \$75 cash and relieve him from payment of any assessments for similar purposes on the other property involved, in return for which the city is to receive a quit claim deed to the sidewalk strip.

Before taking action on the proposition one way or another the trustees wanted to know if somewhat similar propositions could be secured from the other property owners, also if the acceptance of this proposition would invalidate the condemnation proceedings against the others. Accordingly the matter was put over until the next meeting for the umpteen-thenth time.

Want Deputy Marshal

Residents of Canyon park want police service, in the form of a special deputy marshal to serve Saturdays and Sundays during the summer months. On account of the large number of picnickers and visitors, the fire danger from the Sunday crowds and the distance from the city hall, the canyon presents a special problem. A petition from the Canyon Park improvement association requested the appointment of R. H. Fowler. Action was deferred until next meeting.

Separation of the jobs of marshal and street superintendent was discussed at the suggestion of Marshal Udell, who said the duties of both offices have increased to a point where it is difficult to render efficient service. Some of the trustees concurred in the opinion. Inasmuch as the change would involve a rearrangement of salary schedules action was deferred for further consideration.

A jolly week end party was enjoyed at the Adams cabin in the Big Santa Anita Canyon over the Fourth. Those in the party were Mr. and Mrs. Woodson Jones of Memphis, Tenn., Miss Sylvia Braun, Mr. F. W. Nuetzel, Mrs. H. W. Nuetzel, Miss Matilda Nuetzel, Mr. Roydon Pool and Mr. Norman Jensen.

Six Rules to Observe to Prevent Disastrous Fires in the Mountains

RULES TO PREVENT MOUNTAIN FIRES

Precautions of the simplest kind would eliminate most of the loss resulting from forest fires, as shown by reports on the causes of the fires in the reserves last season.

Much could be accomplished by observance of the following six simple rules:

1. Be sure your match is out before you throw it away.
2. Knock out your pipe ashes or throw away your cigar or cigarette stump where there is nothing to catch fire.
3. Don't build a camp fire any larger than is absolutely necessary. Never leave it even for a short time without putting it OUT with water or dirt.
4. Don't build a camp fire against a tree or a log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.
5. If you discover a fire, put it out if possible; if you can't put it out, get word to the nearest U. S. forest ranger or state fire warden just as quickly as you possibly can.

WHOM TO NOTIFY

A. N. Carter, Ranger, Phone Red 20, Sierra Madre. A. M. Udell, Marshal, Phones Red 34 or Red 3. Walter Zachau, District Ranger, Big Santa Anita Canyon. Phone 206-2 bells, Sierra Madre. T. W. Sloan, Division Ranger, Glendora, Phone 72. R. H. Charlton, Forest Supervisor, Los Angeles; Main 2904 or 60011.

GAME PRESERVE MAPS WILL BE ISSUED

Maps showing the boundaries of the newly created game preserve in the Sierra Madre mountains will be issued soon by the forest service, according to announcement from Supervisor Charlton's office. The preserve takes in the most of the range, but, roughly speaking, leaves the desert watershed open to hunters. According to unofficial announcement, hunters who are lucky enough to kill any deer will not be allowed by the game wardens to pack their venison out through the restricted territory but must take it out of the mountains by way of the open region, which means a circuitous trip to the Antelope Valley side of the range. The maps giving full data regarding the new restrictions are awaited with interest by hunters who have an appetite for venison. The leaving of the Malibu country open will probably result in most of the hunters going there, or further north, in search of game.

HOLIDAY THRONG IN THE MOUNTAINS

Thousands of picnickers and campers thronged through Sierra Madre and into the nearby canyons and more remote mountains for the week end and Fourth of July holiday. The crowds were among the largest ever known here. Most of them were only out for a day, but hundreds remained longer at the cabins or sleeping out in the open. Near the Sierra Club cabin and Sturtevant Falls in the Big Santa Anita the blanketed sleepers are said to have been scattered so thickly over the ground that a burro would have had a hard time picking his way without stepping on some. On Monday afternoon and evening there was a steady procession of campers coming out over the trails, travel being especially heavy on the Sturtevant trail.

NATIONAL DEFENSES ARE UNDERSTATED

Those persons who deplore the lack of national defenses and lose sleep over the danger of foreign attack would feel greatly reassured if they could only inspect the array of artillery in the hands of Marshal Udell and Night Watchman Cox. The weapons are of all makes and calibers.

Some are about the right size to tackle an enemy across the street, and some ought to carry from Sierra Madre to a point half way across the Catalina channel. The weapons have been collected from various mountain hikers who did not hold in due respect the Sierra Madre ordinance regarding the carrying of weapons. Four were taken up from Los Angeles boys in the holiday crowds. The guns were taken into custody and their owners invited to return for a session in Judge Perry's court, where they were shown the error of their ways and allowed to go upon payment of fines.

SANTA ANA WEDDING SURPRISE TO FRIENDS

Sierra Madre friends were pleasantly surprised to learn of the wedding of Miss Marguerite Anderson and Miss Henry Pike of Long Beach, which took place Tuesday evening in Santa Ana. No hint that the event was to take place had been received here and it aroused keen interest. Miss Anderson and her mother, Mrs. Lydia Anderson, were formerly residents of Sierra Madre and have been frequent visitors here since removing to Long Beach. The bride is deservedly popular among the young people of both places.

DICKENS FELLOWSHIP RECEIVES A MEDAL

The Sierra Madre Dickens Fellowship assisted the Wednesday Morning Club of Los Angeles at the reception given by them on Wednesday to the delegates to the Dickens Club convention at the fair. Mrs. L. C. Torrance gave a little talk on the Sierra Madre organization and what they had done and they were presented with a bronze medal which had been awarded them at the exposition and brought to them by Miss Edwards, a well known speaker and delegate from St. Louis, Mo. Miss Edwards gave an interesting address and referred to having been entertained in San Francisco by Mrs. C. H. Baker, the two being classmates at Linnwood College. Helen Louise Kimball who has appeared in Sierra Madre many times gave several delightful readings. The Sierra Madre members present were: Mrs. Frank Wright, Miss T. H. Graham, Miss Ida Munsell, Mrs. Mary Goodfellow, Mrs. B. Bravinder, Miss Hilda Lee, Mrs. Selma Beyers, Mrs. A. J. Rust, Mrs. Martha Williamson, and Mrs. L. C. Torrance. Miss T. H. Graham will entertain the delegates at Mia Italia on Friday, assisted by the local Dickens members.

ANNUAL PICNIC NEXT THURSDAY

Sierra Madre Outing Will Take Place at Redondo Beach This Year

Board for Redondo Beach. Through trains. Special excursion rate. Picnic privileges better than ever and attractive concessions at the amusements. The seventh annual Sierra Madre beach picnic, under the auspices of the Sierra Madre Board of Trade, will be held on Thursday, July 15, at Redondo Beach. Secretary Ballou, President Osgood and Chairman Pegler of the entertainment committee have been busy arranging with the Pacific Electric and Redondo Beach people to make this the most attractive outing of the series.

Special Rates

Bargain rates of seventy-five cents for adults and forty cents for children are offered by the Pacific Electric for the day. To get this rate special tickets must be purchased, but they are good on any train during the day, going or coming. Regular commutation tickets are good on the special train but no special rate is obtainable for the portion of the trip not covered by the commutation tickets.

Through Trains

Special through train service will be arranged for the picnic crowd. The special trains will leave Sierra Madre at 8:30 a. m. sharp, according to the committee announcement. Returning the special through cars will leave at 5 p. m. Those wishing to stay later can return on any regular car.

The committee urges all who can do so to purchase tickets in advance, to facilitate ordering the cars.

Picnic Accommodations

Redondo Beach has been making special efforts to secure the beach picnic business this year and promises to have the shady picnic grounds clean and tidy for the Sierra Madre crowd. Sierra Madre is promised exclusive use of the grounds, obviating danger of being crowded out.

Ice water will be furnished free. Hot coffee will be obtainable near by. Gas plates with free gas will be provided for those who wish it.

Free use of the checking stand will be afforded the Sierra Madre people up to 6 p. m. A free nursery in charge of a competent nurse is also offered for the convenience of people having small children.

Amusements Offered

Free dancing is offered in the Redondo Beach pavilion from 3 to 5 p. m. At the big plunge a special rate of 15 cents to all is offered.

This picnic will afford an unusual opportunity to enjoy a day at the beach at the minimum of expense. The low rates and accommodations offered should prove attractive to many who might otherwise find it difficult to arrange such an outing. The thorough car service will be particularly attractive to people who find burdensome the usual changing of cars in Los Angeles.

SEEK TO INCLUDE ALL CANYON LOT OWNERS

Canyon Park Improvement Association Has Rapidly Growing Membership

Practically every owner of property in Sierra Madre Canyon Park will soon be enrolled as a member of the Canyon Park Improvement Association if the present rate of increase keeps up. Dr. A. T. Snell, president, reports that about thirty new members have been received recently and there is a growing spirit of co-operation in the improvement work.

Particular attention is paid to cleanliness and to minimizing the danger from fire. Property owners soon become familiar with conditions and requirements of law, and understand the necessity for every precaution. But transient tenants afford the greatest source of trouble. Members of the association are constantly on the alert for fire danger, and endeavor by advice and counsel to instruct newcomers in the needs of the situation.

Two large fire baskets for the burning of rubbish have been installed in the canyon at the expense of the city as a fire precaution. Dr. Snell says the association members are heartily appreciative of the evident willingness of the city authorities to co-operate with them and that the feeling is reciprocated in growing measure.

Dancing will be provided in the canyon club house on Wednesday and Saturday evenings through the summer. The association has arranged with Mr. Sivran of Lamanda Park to furnish piano music.

Canyon News Notes

Mr. and Mrs. B. F. Davis gave an enjoyable Fourth of July picnic at their cabin, about twenty-five friends accepting their invitation to a basket picnic. Tables and benches were arranged on the attractive bridge which Mr. Davis has recently constructed across the arroyo which runs through his lot.

About forty friends gathered at the T. L. Lockhart cabin just above the club house for a Fourth of July picnic. Many other holiday gatherings were held in the canyon.

The swimming pool is about the most popular spot in the canyon on warm days. It is enjoyed by young and old, and one lady took an unpremeditated bath. She was sitting on the bank watching some of the younger generation enjoy themselves. They invited her to come, or at least take a swing out over the water on the rope with which bathers amuse themselves. She accepted the latter challenge. When well out over the pool, her hold slipped and she found herself in the water with a mighty splash. Insisting that she had done it on purpose just for an excuse to get in the water without changing her clothes, she remained in for some time, enjoying herself with the rest.

DIZZY WHIRL OUTLINED FOR ELKS' CONVENTION

The "Best People On Earth" in all parts of Los Angeles county are feverishly preparing for the big annual bazaar of the antlered herd July 11 to 17. One hundred thousand Elks and visitors from all parts of the United States are expected to be in the Southland.

An elaborate program of entertainment has been arranged by Motley H. Flint, director general for the convention, and also chairman of the 1915 General Committee, which is assisting in all of the 40 conventions in the Southland during expositions year. There will be a magnificent midsummer floral dream and allegorical pageant Wednesday, July 15, the Elks' parade the following day, exhibition drills, two nights of electrical parades and two open air street dancing parties that will be the greatest of the kind ever held in the state.

ORANGE FULL OF GIFTS FOR PROSPECTIVE BRIDE

Mrs. Merton Clark gave a cleverly planned shower on Tuesday evening in honor of Miss Etta Dickson, whose marriage to Mr. Joseph LeGuin of Alhambra takes place on Wednesday evening, July 14. The guests were members of the Eleven and One Club and a few outside guests who will be members of the wedding party. The rooms were decorated with clusters of oranges and from the dining room chandelier hung an orange of unusual size which was later presented to the guest of honor. When she opened it she found a number of pretty and useful gifts to be used in her new home.

CONGREGATIONAL CHURCH All the regular services will be held next Sunday. The pastor will preach morning and evening. Subject in the morning, "The Marks of Jesus." In the evening, "The Poisoned Cup." All are invited.

FRED STAFF, Pastor.

SILVER WEDDING IS CELEBRATED

Mr. and Mrs. L. W. Benadum of Santa Anita were at home to their friends and relatives on Wednesday evening, the occasion being their silver wedding anniversary. About one hundred guests joined in congratulating them and enjoyed the delightful entertainment. Through the kindness of Mrs. Anita Baldwin the affair was held under the Baldwin oaks just north of Santa Anita station. Superintendent Berry and others of the Baldwin ranch employees had rendered assistance in the preparations. Japanese lanterns were strung among the trees and made the scene one of rare beauty as twilight faded into darkness. Music from a string band was carried with delightful effect on the evening breeze. Delightful refreshments were served. Among the guests were many members of Sierra Madre and Pasadena chapters of the O. E. S. and many guests from Los Angeles and Long Beach. Mr. and Mrs. Benadum were presented with many beautiful tokens of the good will and congratulations of their guests.

ALL-DAY TENNIS ON FOURTH OF JULY

One of the most enjoyable functions during this week took place on Monday when Mr. and Mrs. F. P. Conard entertained most delightfully about fifty of their friends with an all day tennis and picnic party. Many interesting sets were arranged while a sumptuous lunch was served under the trees and tennis was resumed in the afternoon. Supper preceded a pleasant evening in which the company was very delightfully entertained by some of the talented guests. Miss Janet Stevenson rendered piano selection, also a vocal solo. Mr. Speer, a talented actor of New York, who will appear this fall in Los Angeles in "Permittee & Potash," gave a number of most entertaining stories as well as vocal selections, which were followed by an Irish monologue by Mr. George Bourke. Progressive five hundred was also enjoyed and prizes were awarded to Miss Harris and Mr. Loggins. Among those present were Mr. and Mrs. J. N. Hawks, Mr. and Mrs. Francis P. Baugh, Mr. and Mrs. Louis Dietz, Mr. and Mrs. J. H. Wright, Mrs. A. D. Hawks, Mrs. Nellie Craig, Mr. and Mrs. Ferris, Mrs. Wood, and the Misses Ferris, Craig, Jones, Dorothy Hawks, Gladys Kraft, Brenda Harris, Florence Vanner, Marian Vanner, Ellen Boaler, Janet Stevenson, Ruth Hawks, Daisy Hawks, Little Humphries, and Messrs. Davenes, Bourke, Loggins, Newton, W. Wright, Groff Brown, and Claude Davis. Among the out-of-town guests were Mr. and Mrs. J. Henderson Childs, Mr. and Mrs. Burton Andrews, Mrs. Handyside, Miss Enid Handyside, and Mr. Paul Graves of Los Angeles, Mr. Speer of New York City, and the Misses Sawyer, Rossiter, Mesdames Latham and Rossiter and Mr. Everett Gardner of Pasadena.

CARL E. OTT IS KILLED: AUTO TURNS OVER

Carl E. Ott, agent for the Crown City Laundry of Pasadena, was killed in an unusual auto accident Monday afternoon near Pomona. He was driving a Ford runabout and made a sharp turn to avoid colliding with a car which was running out in front of him from a cross street. He turned too sharply and lost control of his car, which turned completely over, landing finally right side up. Ott's head was crushed as the car went over and he was probably killed instantly. Miss Maude Massey of Los Angeles who was with him escaped with comparatively slight injuries.

Mr. Ott and Miss Massey had left Sierra Madre together about 10 o'clock Monday morning for a holiday drive to Redlands. Ott had been teaching his companion to drive the car and she had driven much of the way. Hurrying homeward along the boulevard near Pomona towards evening he had taken the wheel in order to make better time. They were facing the sun, which was low in the west, and the blinding light may have been confusing when the other car suddenly loomed up at the cross street. Accounts differ as to just what happened, but it appears that both cars turned sharply to avoid collision. Ott's car shows the effect of the overturning with battered radiator and mudguards and a general wrenching. It was not so badly damaged, however, but that it could be driven to Sierra Madre under its own power by Milton Steinberger who drove to Pomona with C. W. Brunson upon hearing of the accident.

Mr. Ott was thirty-six years of age, had been a resident of Sierra Madre about nine months, residing at the Auburn House. In that time he had worked up a prosperous laundry route in Sierra Madre, Lamanda Park and Arcadia. He was a likeable fellow, winning friends readily, and was regarded as square and reliable by all who had dealings with him. He was a member of the Masonic order, the Knights of Pythias and of other fraternal organizations. He had no relatives in California. His parents reside in Cleveland, Ohio, and telegraphed instructions to ship the body there for interment. C. W. Brunson and F. M. Hart took charge of the sad arrangements, and also of his affairs pending the appointment of an administrator to settle up his business.

A Young Gilbertian.

Harry's little cousin had every toy known to the arts of toymod and to his doting parents. So, when his Indian suit showed signs of wear, it was replaced by a new one, and the discarded splendor was divided between Harry and another boy cousin. Harry drew the fringed and beaded trousers. At first he was radiant, but a glance at himself in the mirror quenched his joy.

"Oh, mother!" cried he in sorrow.

"I'm nothing but a half breed."—New York Post.

Puritan and Cavalier.

Massachusetts and Virginia, although of very different origin and character, were the two colonial leaders. In Virginia politics there was always a theoretical democracy, but the spirit of the state was essentially aristocratic and conservative. Virginia was the cavalier of the colonies. Massachusetts was the Puritan, and when John Adams, New England personified, said in the Continental congress that Washington ought to be general the Puritan and cavalier clasped hands.—Magazine of American History.

the home of Mr. and Mrs. L. E. Steinberger on West Mariposa avenue. The spacious lawn was decorated with Japanese lanterns strung through the trees, and chairs were placed here for the guests to enjoy the program. Delicious punch, ice cream and cake were served during the evening, and a program of musical numbers and readings was enjoyed by about one hundred guests.

A jolly crowd of Sierra Madre and Los Angeles young people enjoyed a cabin party from June 25 until July 5 in the Big Santa Anita. The party was held at the Schwartz-Norris cabin. Those in the party were the Misses Isobel Langdon and Katherine Schwartz, of Sierra Madre, Dorothy Day of Los Angeles, Messrs. Charles Schwartz, George Norris, Ray Herington, Gustav Janson and Verne Hanes of Los Angeles, Paul Fussell of Pasadena, and Leonard Jordon of Los Angeles.

A jolly party of the younger set enjoyed a holiday house party at Balboa. The party left Sierra Madre on Saturday morning and returned on Wednesday night. Swimming, bathing and boating were the pastimes. The party was chaperoned by Mrs. W. H. Ingram, Mrs. E. W. Camp and Mrs. R. Hamilton and included Misses Helen Williams, Verle George, Adelaide Mahan, Dorothy McBean, Theo Hamilton, Althea Adams, Dorothy Camp, Claribel Constant and Yerda Appleby, Messrs. Herbert Ingram, Victor Hill, Laurence Nourse, Raymond Hedderly, Raymond Andrews, John Moses, Wade Brunson, and Marshall Wright.

Economy Hints

A penny saved is a penny earned.—
Benjamin Franklin.

DON'T eliminate beefsteak from your menu just because you have neither a gas, electric nor coal range. You can fry a steak on that little gas stove you bought for 40 cents if you only know how, and it would take a well qualified expert to tell the difference.

First have your pan red hot and drop in a piece of suet about the size of a hickory nut. Take your steak, a sirloin or porterhouse, at least one and one-half inches thick—two inches thick is better; let it remain three minutes first on one side, then on the other, for searing. This is to keep the juices in. Keep turning the steak constantly at intervals of three to five minutes until done—rare, medium or well—as desired, and the result will be two broths to a broiled steak.

Another way to fry steak is to sear it three minutes on each side, then place a cover on the pan and let it cook slowly seven minutes more on each side, when it is medium.

Of course there is nothing like broiling for the best flavor, and there is nothing to equal the coal or wood fire for this purpose. The secret is a glowing red heat. The housewife with a wood fire, if she will take the trouble to burn the wood nearly to the center, check the draft until the fire forms charcoal, will be repaid with a dainty morsel.

The average housewife, however, finds the gas oven an ideal instrument for broiling. The oven should be hot when the steak is placed within, so it is well to light the gas in the oven about five minutes before the steak is ready and when the broiler is hot put the steak or it as near the gas flame as possible without letting it touch. Sear on each side from one to two minutes, turning it with a fork inserted as near the edge as possible. When the searing is completed turn the steak again, lower the pan about six inches and turn the burners halfway down so that the steak may broil slowly on each side about five minutes. This will give you a rare steak. It is sometimes well to give the steak a little more time and turn it oftener, never allowing it to broil on one side longer than four or five minutes. When frying a steak in an ordinary pan remember to stick the fork always near the bone in turning. The fried steak requires about twenty minutes.

BRIDE'S SHOWER.

How to Plan an Entertainment In Which Pins Are Used.

The invitations for this unusual shower were written on a correspondence card, on which a little gilt paper heart was pinned. Pins of every description were brought by the guests; there were papers and cubes of pins, pin balls, cushions filled with pins, bar, veil, collar and cuff pins. Safety pins in black and white were there, and papers of gilt and pearl pins for fastening the wedding veil. The following old rhyme, changed to suit the occasion, was written on the bride's place card:

No needles, but pins,
No needles, but pins,
For when a girl marries
Her happiness begins.

At each plate there was a bouquet of dainty spring flowers, with a fancy pin thrust through the gauze bow that tied them. It is astonishing how many novel and useful pins and receptacles there may be devised for such a shower.

The hostess gave a leather velvet lined scarfpin case which the little bride to be said she knew "he" would appropriate.

There was a shirt waist set consisting of four little velvet bows, each one attached to a safety pin and all easy to attach to a lace jabot or the front of a shirt waist.

How to Make a Pretty Cover For Hot Biscuits.

Any hostess who prides herself on her delicious biscuits should not fail to keep them tasty by having them covered during the meal, so that they will retain the heat. An attractive cover can be made of white linen having a square center and four pointed ends. On one of the pointed pieces two biscuits might be embroidered. To make the design more realistic you can tint the biscuits brown and then outline the edges of them, or, in place of using the design, embroider the words "Hot Biscuits" on the linen. Have such a cover ready for the next plate of hot biscuits you serve to your friends and enjoy the praise you will receive for your needlework and your culinary ability.

How to Orientalize a White Silk Faille Suit.

One of the prettiest ideas in linings seen for months is that which gives to a suit of white silk faille a Chinese atmosphere. The coat is so made that it may be worn open without having a slovenly appearance, and so the pretty lining peeps out and captivates all who spy it. The lining is a soft, heavy wash silk of white ground, with the famous "willow" plate pattern upon it in Chinese blue. One has to see it to realize the charming effect obtained. No note of blue appears otherwise upon the suit.

HOW SATISFACTORILY TO ADD TO YOUR SUPPLY OF TOWELS.

The woman who likes hand work can do no better than to make a supply of guest towels. Each is a small amount of work, and yet when they are grouped in half dozen lots they appear to be an accomplishment of no meanness.

An interesting finish for a guest towel was devised by a woman who had received a gift of some linen handkerchiefs finished with a little colored crocheted edge. She edged towel ends in the same way, using a heavy twisted mercerized floss in various colors for the purpose. A third of an inch from the ends of the towels, made of huckaback, two or three threads were drawn, and the crocheted hook of steel, was worked into this space. A picot edge was crocheted all across the end of the towel, and above it was placed a letter in the same color as the edge in satin stitch or cross stitch. These towels were decidedly effective and are not difficult to make.

Cross stitch designs of all sorts are still used on guest towels. Nothing is prettier than the wreath of blue, pink, green and yellow worked in cross stitch. There are also effective baskets and other conventional figures.

Special little towels are made for babies, and some of these show rabbits or chickens or ducks outlined in a panel at one edge, with the background formed of colored threads run into the huckaback.

ICEBOX PERIL.

How to Keep the Refrigerator Sweet and Clean at All Times.

Mrs. Housewife, In just what condition do you find the refrigerator you are using this season?

Three things must be found in a perfect refrigerating plant, and these much reach further than the ice chest. The plant must be sanitary, efficient and economical.

First, one must see that the box is properly placed, preferably in a light, airy place, and that the drainpipe is properly connected. Many builders do not give this any consideration, and many housewives do not seem to care where the pipe leads or into what it drains, only that it "goes" somewhere and thus does away with the "pan under the icebox." Far better a pan that runs over periodically than a drip pipe connected with a foul drain or sewer that will fill the box with sewer gas and poison its contents.

If the box is wood give it an "air bath" inside and out. Open all doors and dry every part before cleaning, then give it a thorough scrubbing with hot water, soap and borax. Remove shelves and allow box to cool and dry before using.

If the shelves are wood care must be exercised, for in these damp, water soaked shelves lurk bacteria. These invisible foes are difficult to destroy, and it is only by constant vigilance you combat them.

Wooden shelves absorb odors, and once they become impregnated with these it is almost impossible to get rid of them. If one must use wooden shelves give them an air and heat bath at least very week. Remove shelves and set at once in boiling water, keep at boiling point thirty minutes, set in hot oven for an hour and then rub all over with a solution of formaldehyde, wipe dry and put in sun for several hours.

Metal shelves with heavy coating of enamel are safe and easily taken care of.

Keeping all corners and sides, as well as dishes used, perfectly dry and clean; keeping the temperature of the box at a low degree and the air dry, will lessen the danger from bacteria.

See that food is put at once in the refrigerator. If this is left out to be nibbled by the fly that has come from some fever infested spot covered with germs, some of these must necessarily adhere to the damp surface of the meat. The cold in the box is powerless to stop the growth of germs. It can only retard it, and sooner or later the food becomes unfit for use.

Food cooked or uncooked should not "stand around" in the kitchen, but should be put at once in the cooling room of the refrigerator.

Partly decayed food should never be placed in the refrigerator. You do not succeed in "keeping" it, and you fill the food compartment with the bacteria laden air that settles upon the food in the box.

How to Use Some Simple Beauty Remedies Successfully.

Stains on the fingers that will not yield to ordinary methods can be removed by dipping the fingers in peroxide of hydrogen.

A healing ointment for rough skin is made by mixing thoroughly one part of bismuth to three parts of white vaseline.

Select a soap that has little alkali and no coloring in it. The best is also unscented. Such a soap will not harm the most delicate skin.

The constant use on the teeth of powdered charcoal or pumice stone is injurious, as such powders break the enamel, and the teeth will then quickly decay.

The greatest care should be taken of the teeth. Equal parts of castile soap, powdered orris root and precipitated chalk make a good and inexpensive tooth powder.

COMPANY K.
H e sang and hummed in his workshop.
Whittled and carved all day,
That the children of many nations
Could have his toys for play.

Rank after rank of soldiers,
Wonderfully finished and done,
Stood on the shelves above him,
Armed with their wooden guns.

Company I was finished,
He was carving at company K,
Dreaming of children who'd love them
In lands that were far away.

Dreamed of a child commander,
Of his wooden soldiers arow,
Facing a Teddy bear perl,
Bent on destroying the foe.

Laughed and sang and was happy,
As he thought of these men at war,
When the bear charged in among them
And scattered them over the floor.

Company K is unfinished,
Unpainted and covered with dust.
Their helmets are tarnished and dingy
And speckled with spots of rust.

They have waited long in this armory shop
For the swing of the workshop door,
Trying to fathom and figure the time
That he will be gone to war.

So they can't understand why this woman
Cried in this shop today,
As she tenderly kissed the dusty men
Who were to be company K.

ENVY OF AN OLD SOLDIER.
Y ou need not watch for sliver in your
hair,
Or try to smooth the wrinkles from your
eyes,
Or wonder if you're getting quite too
spare,
Or if your mount can bear a man your
size.

Y ou'll never come to shirk the fastest
fight,
To query if she really cares to dance,
To find your eye less keen upon the sight
Or lose your tennis wrist or golfing
stance.

F or you the music ceased on highest
note—
Your charge had won, you'd scattered
them like sand,
And then a little whisper in your throat
And you asleep, your cheek upon your
hand.

T HIRICE happy fate, you met it in full
cry,
Young, eager, loved, your glitt'ring world
all joy:
You ebbed not out, you died when tide
was high.
An old campaigner envies you, my boy!

OLD HOUSES.

O LD loveliness, set in the country wind,
Or down some vain town road the
careless tread.

Like bush of candles lighted for the dead,
That bush of yours, half seeing and half
blind.

Still do you strain at door, but we come
not.

The little maids, the lads, bone of your
bone;

In some sad wise you keep the dusk alone,
Old loveliness, a many a day forgot.

But nay, but nay! All weathers to you
pass,

Blown by some sweet poignancy of air;
At some shop pane in Lent the juncos
start;

But oh, their like in your old windy
grass!

Through tears that choke we see you
waiting there,
Once more, once more are gathered to
your heart.

THE ROSE AND THE STONE.

H ERE, in the tangie of a deserted field,
blooms a red rose.

It is a sort that one may find in old gar-
dens.

Near it is a flat stone half imbedded in
the earth.

O NCE there was a house there
And a man and a woman.
The man brought the stone for a door-
step.

The woman planted a rose by their thresh-
old.

T HE house is gone now, the spot is
overgrown and forgotten,
And the woman is dead.
And the man is old and in a far country,
But the stone remains.

And the rose is still blooming.

WORDS OF WISDOM.

T HERE'S always some one ready
To tell you what to do.

And keep your footsteps steady

As life your journey through

There's always some one knowing
Just what your course should be.

They teach you how to nourish
Yourself with food and drink;

They tell the best in art;

On what you say or think.

Their chains of thought they wreath;

They teach us our opinions

And how to walk and breathe.

THOU ART LIKE A FLOWER.

A, love, you are a flower,

That God in his heaven will keep you

So sweet, so pure, so fair.

EDITORIAL CHAT

Here's Hoping—

Every country editor in Los Angeles county is hoping S. M. Greene who recently sold the Inglewood News will soon find a new editorial berth within the county. If they were asked to name examples of the very best type of country editor it is safe to bet that most of them would name Sam Greene. Many an editor, puzzling over some question of good taste in "make-up" or other department of newspaper work, has hunted up the Inglewood News to see "how Greene does it." His breezy editorial column will be sadly missed from the exchange table, and the prospect of his absence from editorial gatherings brings regret to every man (and woman) of the craft. Messrs. W. D. Crow and Thad N. Shaw of Montesano, Wash., are Mr. Greene's successors.

Name, Please—

In the news columns of the Examiner we read: "Reeling with drink and reckless from its effects, William H. Manworan brandished a beer bottle last night at Brea and in attempting to strike Robert F. Brown, received the full charge from a shotgun in his abdomen, dying half an hour later." Manworan had been on a protracted spree and Brown had found him beating and mistreating his wife. The Examiner omitted two important details in its account of the affair—the label on the beer bottle and the name of the man who sold Manworan the stuff which had prevented him for months from holding a steady job.

Down With Peace Please—

Over in Germany they suppressed a Socialist journal for publishing a seemingly (to Americans) inoffensive peace plea. And yet they allow the publication of war poetry from men in the trenches, with such passages as this: A little room I see, a lamp turned low, And there my child abed, clad white as snow, Her tresses gold, her chubby cheeks so round, Her lips as berries red in wildwood found, Questioning her mother: "Will father come back soon?"

The author died before his lines were published. No need of economic plea for peace if there is much like that in the fifty-six volumes of war poetry listed by a Berlin literary periodical.

Safety First—

Some anti-suffrage scientist has propounded the theory that if women get into the habit of using their brains for thought after the manner of men they will find baldness growing prevalent among them. Why discourage

that? They would then have to hold their hats aboard by means of elastic cords running under their chins, and discard the deadly hatpin. Please find some other bluff for frightening women back into "her place," wherever that is.

THE CAPTAIN WITH HIS WHISKERS.

As they marched through the town with their banners so gay, I ran to the window to hear the band play; I peeped through the blinds very cautiously then, lest the neighbors should say I was looking at the men. Oh, I heard the drums beat and the music so sweet; But my eyes at the time caught a much greater treat! The troop was the finest I ever did see, And the captain, with his whiskers, took a sly glance at me.

WHEN we met at the ball I, of course, thought 'twas right To pretend that we never had met before that night, But he knew me at once, I perceived by his glance, And I hung down my head when he asked me to dance. Oh, he sat by my side at the end of the set, And the sweet words he said I never shall forget. For my heart was enlisted and could not give free. As the captain, with his whiskers, took a sly glance at me.

AYE, tear her tattered ensign down! Long has it waved on high, And many an eye has danced to see That banner in the sky. Beneath it rung the battle shout And burst the cannon's roar. The meteor of the ocean air Shall sweep the clouds no more. Her deck, once red with heroes' blood, When knelt the vanquished foe, When winds were hurrying o'er the flood. And waves were white below, No more shall feel the victor's tread Or know the conquered knee. The harps of the shore shall pluck The eagle of the sea!

Oh, better that her shattered bulk Should sink beneath the wave! Her thunders shook the mighty deep. And there should be her grave. Nail to the mast her holy flag, Set every thirdbare sail And give her to the god of storms, The lightning and the gale! —Oliver Wendell Holmes.

And she will dust off the piece of her wedding cake that is wrapped up in a piece of her bridal veil. And she will kiss the little pair of baby shoes wrapped up in the tiny baby cap. And she will get out the tintypes of father taken the day they were married. And she will have a good bowl and kiss the tintype. THE housekeeper has been wishing for the last four or five months to see plenty of fresh vegetables and fruits on her table. Now, since the spring days have appeared, her wishes are a realization. It is her duty as an efficient housekeeper to have as many and as large a variety of fresh vegetables as she can. Vegetables, like fruits, are rich in water, and therefore they do much to quench the thirst. Celery is 95 per cent water. Minerals occur in all vegetables, and cellulose or the woody part is their framework. Some of the vegetables, such as peas, potatoes and beans, are especially rich in starch, while beets have a large amount of sugar qualities. In cooking strong-juiced vegetables it is necessary to use plenty of water. In vegetables high in sugar and soluble, such as peas and carrots, as little water as possible should be used. In preparing vegetables it is highly important that they should be well cleaned and washed. If not, they become a carrier of disease. Most vegetables need plenty of boiling to soften the cellulose.

Celery and Cabbage Salad.
Hollow out green peppers and fill with chopped celery and cabbage in equal parts. Fill either with mayonnaise or with vinaigrette dressing.

Potato Salad.
Use a cupful of diced boiled potatoes. Mix with it a fourth cupful of sliced celery. Garnish with dressing and a hard boiled egg. Enough dressing should be used to coat and to flavor the whole.

Orange Souffle.
Heat two tablespoonsful butter and add the same amount of flour. Pour in one-fourth cupful milk and cook until smooth. Mix one-fourth cupful sugar with the same amount of lemon juice. Combine the two. Add yolks and then beaten whites. Bake until brown. If you desire to give more flavor use a whole lemon and half a cupful sugar.
